AUTHORIZATION TO PERFORM SURGERY/DENTAL CLEANING

The anesthetics used at Sage Creek Animal Hospital are extremely safe. As with any anesthetic procedure, there is always the chance that complications may occur, including anesthetic death. At Sage Creek Animal Hospital, your pet will receive pre-anesthetic blood testing and be placed on IV fluids during their procedure to further reduce the risk of complications.

Owner: _____ Pet's Name: _____

Procedures: _____

Current Medications: _____

Personal Belongings: _____
